Supplemental Table 3. Bivariate Correlation Coefficients Among 4 Factors

Factor	Patient-Centered Communication: Support Staff	Patient-Centered Communication: Clinician	Access to Care: During the Visit	Access to Care: Getting There
Patient-centered communication: support staff	1.000	0.539 ^a	0.369 ^a	0.443 ^a
Patient-centered communication: clinician	0.539 ^a	1.000	0.383 ^a	0.425 ^a
Access to care: during the visit	0.369 ^a	0.383 ^a	1.000	0.524 ^a
Access to care: getting there	0.443 ^a	0.425 ^a	0.524 ^a	1.000

^a $P < .05$.
