**Funding support:**

This project was funded under Contract Number HHSP233201500023I from the Agency for Healthcare Research and Quality (AHRQ), US Department of Health and Human Services.

Readers should not interpret any resources or statements in this submission as an official position or endorsement by AHRQ or by the US Department of Health and Human Services.

**Acknowledgments:**

The authors gratefully acknowledge the Agency for Healthcare Research and Quality for their support of this project and article, commitment to improving the management of unhealthy alcohol use in primary care, and many tremendous contributions that support primary care practice transformation. The authors also gratefully acknowledge contributions from the Facilitating Alcohol Screening and Treatment (FAST) – Colorado Team in review and editing.
