

Supplemental materials for:

Liddy C, Moroz I, Afkham A, Keely E. Sustainability of a primary care-driven econsult service. *Ann Fam Med*. 2018;16(2):120-126.

Supplemental Appendix 1: PCP close-out survey administered at the end of each eConsult.

Q1: Which of the following best describes the outcome of this eConsultation for your patient?

- I was able to confirm a course of action that I originally had in mind
 - I got new advice for a new or additional course of action
 - I did not find the response very useful
 - None of the above (please comment)
-

Q2: As a result of the eConsultation would you say that:

- Referral was originally contemplated but now avoided at this stage
 - Referral was originally contemplated and is still needed – this eConsult likely leads to a more effective visit
 - Referral was not originally contemplated and is still not needed – this eConsult provided useful feedback/instruction
 - Referral was not originally contemplated, but eConsult process resulted in a referral being initiated
 - There was no particular benefit to using eConsult in this case
 - Other (please explain)
-

Q3: Please rate the overall value of the eConsult service for your patient:

Minimal 1 2 3 4 5 Excellent

Q4: Please rate the overall value of the eConsult service in this case for you as a primary care provider:

Minimal 1 2 3 4 5 Excellent

Q5: We would value any additional feedback you provide:
